

**A systematic approach for analysis of the impacts
of climate change, sustainable community
development measure, environmental and energy
policy on energy sector in Ontario**

Prepared by

Yanpeng Cai

Faculty of Engineering

University of Regina

Science Horizons Youth

InternshipProgram

May 2007

TABLE OF CONTENTS

ABSTRACT	VII
CHAPTER ONE: INTRODUCTION.....	1
1.1. BACKGROUND	2
1.2. LITERATURE REVIEW	6
1.2.1. IMPACT ANALYSIS OF ENERGY/ENVIROMENTAL POLICIES.....	6
1.2.2. ADAPTATION PLANNING FOR COMMUNITY/REGIONAL DEVELOPMENT ...	10
1.2.3. ANALYSIS OF CLIMATE CHANGE EFFECTS ON ENERGY SECTORS.....	12
1.2.4. SUMMARY	13
1.3. OBJECTIVE.....	15
CHAPTER TWO: OVERVIE OF ONTARIO AND ITS ENERGY SECTOR	17
2.1. CHARACTERISTICS OF ENERGY SYSTEMS.....	18
2.2. OVERVIEW OF THE PROVINCE OF ONTARIO.....	20
2.3. OVERVIEW OF ENERGY SECTOR IN ONTARIO	22
CHAPTER THREE: METHODOLOGY	27
3.1. GENERAL DESCRIPTION.....	28
3.2. STRUCTURE OF THE CANPEM.....	28
3.3. MODEL FORMULATION	32
CHAPTER FOUR: CANPEM FOR THE PROVINCE OF ONTARIO.....	39
4.1. END-USER DEMAND ASSUMPTIONS.....	40

4.2. ENERGY SUPPLIES	41
4.3. TECHNOLOGIES	42
4.4. POLLUTANT EMISSIONS	43
4.5. TIME-FRAME CONSIDERATION	43
CHAPTER FIVE: APPLICATION OF THE CANPEM	44
5.1. BUSINESS AS USUAL (BAU) CASE.....	45
5.2. SCENARIO 1: IMPACTS OF ENERGY AND ENVIRONMENTAL POLICIES	56
5.3. SCENARIO 2: SOLAR ENERGY OPTION.....	58
5.4. SCENARIO 3: BAU WITH KYOTO TARGETS	64
5.5. SCENARIO ANALYSIS	69
5.6. PERTURBATION CASES OF TEMPERATURE VARIATIONS	75
CHAPTER SIX: AN INTEGRATED DECISION SUPPORT SYSTEM FOR ADAPTATION	
 PLANNING UNDER DIFFERENT SCENARIOS.....	97
6.1. OPTIMIZATION MODEL BASED DECISION SUPPORT SYSTEM	99
6.2. APPLICATION OF THE CANPEM-IDSS	108
CHAPTER SEVEN: CONCLUSIONS	130
REFERENCES	134

LIST OF FIGURES

FIGURE 3.1. STRUCTURE OF CANPEM	29
FIGURE 5.1. GHG EMISSIONS BY SOURCE IN THE BAU CASE	55
FIGURE 6.1. SYSTEM STRUCTURE OF CANPEM-IDSS	107
FIGURE 6.2. THE MAIN INTERFACE FOR THE CANPEM-IDSS.....	112
FIGURE 6.3. AN POP WINDOW EXAMPLE FOR “SCENARIO MANAGEMENT”	113
FIGURE 6.4. THE WINDOW FOR VARIABLE MATRIX	114
FIGURE 6.5. AN EXAMPLE WINDOW FOR PARAMETERS.....	115
FIGURE 6.6. AN EXAMPLE WINDOW FOR A TABLE IN THE CANPEM-IDSS	117
FIGURE 6.7. AN EXAMPLE WINDOW FOR LINE GRAPH OF THE OUTPUT (ENERGY ACTIVITY CAPACITY).....	118
FIGURE 6.8. AN EXAMPLE WINDOW FOR BAR GRAPH OF THE OUTPUT (ENERGY ACTIVITY CAPACITY).....	119
FIGURE 6.9. AN EXAMPLE WINDOW FOR LINE GRAPH OF THE OUTPUT (ENVIRONMENTAL EMISSIONS).....	120
